

# NetgisServer/360 Panorama

## 360° Panorama

- NetgisServer/360 - 360 Window

Netgis Server 360 can be accessed from the top toolbar button that is located on the left top of the map.

After clicking the 360 button, when the mouse cursor is moved over the map, the mouse cursor takes "+" shape. When it is clicked, 360 window is opened.

As an alternative, 360 window can be opened with "Netcad/360" button in the menu that appears when right-clicking a point on the map.
